

# Virtual Fax

The first-of-a-kind solution in South Africa, utilising Fax over IP technology that works at all times  
 A proven track record makes this a must have

**10 Year  
Archive**

**Per Second  
Billing**

**Reduced  
Fax Rates**

“Fax over IP” is a phrase that is not mentioned often, due to the instability of the technology; however, by combining a few technologies, the **Virtual Fax** product has shown that fax over IP is both cost-effective and reliable.

Although businesses usually maintain some kind of fax capability, the technology has faced increasing competition from Internet-based alternatives.

Virtual assist companies as well as business partners to modernise faxing so that it fits into the business model of newer technologies.

We are the experts when it comes to combining fax with technologies like Voice over IP and Fibre solutions.
